

Relationship RADAR®

Relationship Radar® is an award-winning online tool to assess the health of strategic client, customer or supplier relationships. It enables a business to quickly identify issues, mitigate risk and leverage opportunities to maximise the relationship potential

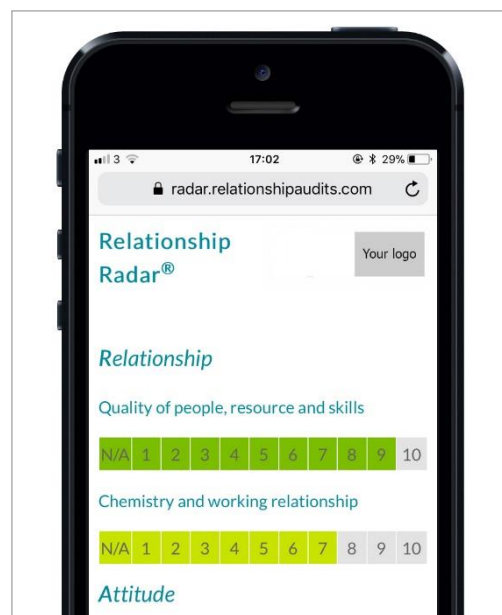

Quick & easy to use with engaging user interface

- Assessment takes 3-4 minutes to complete, while save & return capability allows 'parking'
- Colourful, engaging user interface to aid completion
- Focuses on 5 key measures of relationship health
 - **R**elationship
 - **A**ttitude
 - **D**elivery
 - **A**dded value
 - **R**ecommendation
- Mix of quantitative(10) & qualitative(3) questions

Web-based, fast, easy to deploy and use with smart phones

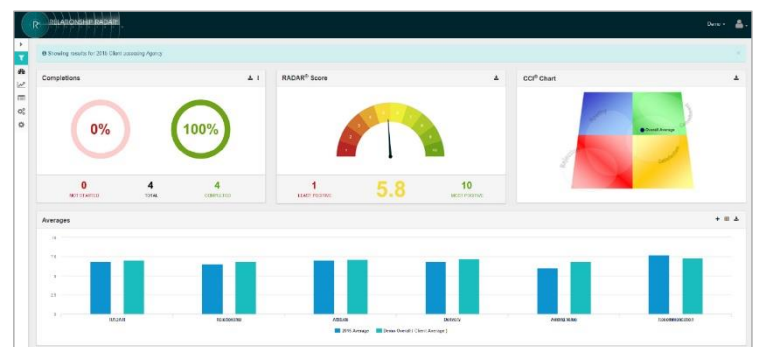

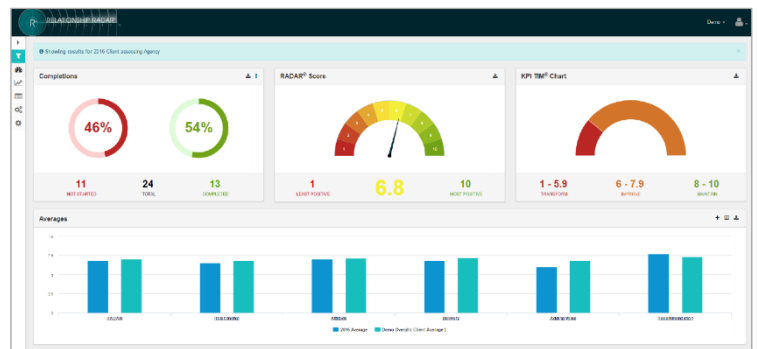

- Designed for use on PC/MAC, tablet and smartphone
- Automated, web enabled process to email and collect assessments from participants
- Unique link for each participant ensures security
- Variable KPI subsets under consistent headings available for different types of industries

Clear and fast reporting

- Online results dashboard, live when survey launches
- Automatic alerts for low scores
- Access can be tiered and restricted via password
- Completion summary with real time updates
- Graphic presentation of results as they come in, with filtering options for 'drill down' detail
- Unique one number RADAR® score
- Clear signposting of issues & opportunities
- Millions of data-points deliver strong benchmarking capability
- Relational database for multi-level analyses
- ASP web hosted with password protection
- Customisable, automated report writer
 - fast and easy report preparation
- Available with/without a measure of client commitment
- Data fully exportable
- Full analysis and reporting available if required

Pricing to fit your needs

Pricing is based on a combination of fixed and variable elements as follows:

- One-time fee to cover initial set up if different from standard survey
- Variable cost based on
 - the number of participant invitation links sent
 - Marginal costs fall as volumes rise through tiered levels
 - whether or not Relationship Audits® provides analysis and reporting
- Managed (by Relationship Audits®) or self-managed options available

Relationship Audits
& Management

London, Cape Town,
Paris, New York,
Melbourne, Dusseldorf
